[www.cookcountygov.com/secretary](http://www.cookcountygov.com/secretary)

TONI PRECKWINKLE  
PRESIDENT

MATTHEW B. DELEON  
SECRETARY TO THE BOARD

**FEBRUARY 23, 2011**

**NOTICE**

There will be a meeting of the **Technology Committee** of the Board of Commissioners of Cook County on **Monday, February 28, 2011** at the hour of **11:30 A.M.** in the Board Room, Room 569, County Building, 118 North Clark Street, Chicago, Illinois to consider the following:

310757      **MICROSOFT PROFESSIONAL SUPPORT (PROPOSED CONTRACT).**  
Transmitting a Communication dated December 28, 2010 from Greg Wass, Chief Information Officer, Bureau of Technology:

requesting authorization for the Purchasing Agent to enter into a contract with **MICROSOFT PROFESSIONAL SUPPORT**, Dallas, Texas, for integration and enhancement services to core Microsoft software infrastructure for Cook County.

Reason: Services are needed to establish a Microsoft development, test and production environment. This integration will enhance Cook County's core computer foundation and integrate previously installed software systems such as Exchange, Microsoft SharePoint, System Center Configuration Manager, and various application systems throughout Cook County. This enhancement will allow for the configuration of Unified Messaging and the creation of workflow processes and self service portals that will generate process efficiencies.

Estimated Fiscal Impact: \$1,000,000.00. Contract period: February 1, 2011 through January 31, 2014. (717/023-441 Account). Requisition No. 10230002.

This item was included in the 2010 Capital Equipment Program approved by the Board of Commissioners on November 19, 2009.

Vendor has met the Minority and Women Business Enterprise Ordinance.

**TECHNOLOGY COMMITTEE NOTICE**

**FEBRUARY 23, 2011**

**PAGE 2**

310951 CLERK OF THE CIRCUIT COURT, Dorothy Brown, transmitting a Communication, dated January 6, 2011:

requesting authorization to accept a grant award in the amount of \$129,600.00 from the Illinois Criminal Justice Information Authority (ICJIA). The funds will be used to improve disposition reporting to Illinois State Police. This grant requires a cash match or an in-kind match of a minimum of 20 percent to provide for the additional funds for providing an overall method or system of correcting the rejected postings from the Illinois State Police's Criminal History Record Information (CHRI) system.

As the Clerk of the Circuit Court (CCC) lacks an overall method or system of correcting the rejected postings from the Illinois State Police's CHRI system, CCC is proposing to build an application that will process the rejected dispositions that did not post to CHRI, provide a user interface to allow for updates to the information contained in the Clerk's disposition reporting, and to transmit that information so that it successfully posts to CHRI. This solution will specifically provide for:

Automating the interface of records that are pushed back to CCC for correction and resubmission to ISP's system for updating to CHRI; and

Implementing improved data capture procedures (technical and operational) that would facilitate complete arrest reporting, research missing dispositions and information for reporting to ISP's system; and

Reengineering business processes that are impacted by the new application build; and

Examining and improving data collection at critical points throughout the justice process; and

Establishing more effective accuracy and information quality and auditable controls; and

Reducing the backlog of missing disposition or related information.

Additionally, the solution will have to examine the collection points of information coming into the Circuit Court. There may be opportunities for improvements in receiving critical data through an electronic exchange as opposed to many of manual entry points that exist today. Lastly, CCC will also add stakeholders to the project as necessary, especially as it relates to agencies that are identified through the data collection and exchange points, where improvements can be made in ensuring accurate and complete information at its point of origin. Justice XML standards will be used as appropriate.

Estimated Fiscal Impact: \$32,400.00. (528-818 Account). Grant Award: \$129,600.00. Funding period: January 1, 2011 through March 31, 2012.

Sufficient funds are available in the Circuit Court Automation Fund.

**TECHNOLOGY COMMITTEE NOTICE**

**FEBRUARY 23, 2011**

**PAGE 3**

The Budget Department has received all requisite documents and determined the fiscal impact on Cook County, if any.

311140 PRO-WEST & ASSOCIATES, INC. (PROPOSED CONTRACT). Transmitting a Communication, dated January 26, 2011 from Greg Wass, Chief Information Officer, Bureau of Technology:

requesting authorization for the Purchasing Agent to enter into a contract with **PRO-WEST & ASSOCIATES, INC.**, Walker, Minnesota, for application development and automation of data that will coordinate business work flow primarily between the offices of the Department of Building and Zoning and the Zoning Board of Appeals.

Reason: The objective of this project is to streamline workflows between Building & Zoning and the Zoning Board of Appeals. This project will automate the process for handling requests for zoning changes and permits, inventory of existing municipal zoning ordinances, creation of a web-based application for municipalities to report zoning changes, and the development of a countywide zoning permit application that is integrated into the County's enterprise GIS environment. Based on an RFP for the selection of a vendor to develop a zoning workflow management application and related services, award is being recommended based on ProWest's technical solution, expertise and ability to meet all of the County's specifications.

Estimated Fiscal Impact: \$657,112.00. Contract period: March 1, 2011 through July 31, 2012. (717/545-579 Account). Requisition No. 15450002.

Vendor has met the Minority and Women Business Enterprise Ordinance.

**\*Referred to the Committee on Technology on 02-15-11.**

311141 SECURUS TECHNOLOGIES, INC. (PROPOSED CONTRACT AMENDMENT). Transmitting a Communication, dated January 26, 2011 from Greg Wass, Chief Information Officer, Bureau of Technology:

requesting authorization for the Purchasing Agent to amend Contract No. 08-45-256 with **SECURUS TECHNOLOGIES, INC.**, Dallas, Texas, for the Coinless Inmate & Public Pay Telephone Equipment and Services by adding coinless telephone equipment and services to the Juvenile Detention Center facilities, create inmate debit accounts, and implement a simplified rate structure.

Reason: Juvenile Facility Project – Securus will provide the equipment/Applications in connection with the Secure Call Platform (SCP) services needed to support the required number and type of phones and other components and storage. Inmate Debit Accounts – Upon the successful implementation of Voice Biometrics, it is the County's intent to install Debit accounts. This allows the inmates to call

**PAGE 4**

anyone and provides inmates the option of immediately paying for and making calls. Secure pins will be provide for easy investigation of calls and complaints, it enhances reporting capabilities and reduces administrative costs. Simplified Rates – rates at Cook County today are based on AT&T rates that were previously in place. The current structure is extremely complicated for inmates and their families. A simplified rate plan will reduce complaints, reduce fraud, eliminates the need to use illegal remote call forwarding services and increase County revenues by an estimated \$623,000.00 annually.

Estimated Fiscal Impact: None. Contract period: December 1, 2007 through November 30, 2012.
